

Greater Syracuse Progressive Coalition

Organizational Partner Form

- Yes, we would like to become an official “Partner Organization” of the Greater Syracuse Progressive Coalition. (Please return this form with a brief letter stating your desire to join the coalition on organizational letterhead.)

A partner organization is committed to participating in the development of the Greater Syracuse Progressive Coalition. We expect this definition to expand over time as the coalition develops.

MISSION STATEMENT

The Greater Syracuse Progressive Coalition brings together organizations (excepting political parties) and individuals committed to creating a more just, sustainable, inclusive and peaceful community.

GSPC seeks to create a society in service to the common good, accountable to the needs of the people. We seek true democracy in Central New York, comprising the voices of all people, regardless of race, gender, class, religion, ethnicity, sexual orientation or ability.

The organizations we represent work for peace, equality for all, human rights, workers rights, criminal justice reform, environmental protection, economic justice, an end to racism and more. We meet regularly to share information across these groups and to collaborate on issues of local, state, national and global consequence. We do not endorse candidates for elected office. We welcome other organizations and individuals to join our efforts to create a more just, sustainable, inclusive and peaceful community.
