

IS THE SPRAY CAN MIGHTIER THAN THE SWORD?

William Parry has created a moving tribute to the artwork depicting a people's struggle to overcome a harsh existence. Full-color photographs are featured on the pages of his book **AGAINST THE WALL - THE ART OF RESISTANCE IN PALESTINE**. Parry will talk about his book and screen the photos that make up this amazing collection.

The idea for this book started as I was walking around Bethlehem taking in the volume of witty and moving artwork, realizing that someday the wall will fall and the artwork should be saved for posterity. I have tried to provide a glimpse into the spirit of the graffiti and the complex reality that generates it.”
